FULL STACK WEB DEVELOPER

Full Stack Web Developer and recent graduate of Columbia University's Full Stack Web Development Bootcamp. Able to design front end websites in addition to building full databases on the backend. Experienced working in a diverse team environment through collaboration with the ability to successfully implement projects and meet deadlines.

TECHNICAL SKILLS

HTML5, CSS3, Javascript, jQuery, Bootstrap, Express.js, React.js, Node.js, Database Theory, Bookshelf.js, MongoDB, MySQL, Command Line, Git.

PROJECTS

Findflix |Front End Developer

- This project intakes the user's preferences and searches movie criteria of their choice based on genre. FindFlix also assists in searching movie theaters near the user's area.
- Tools/languages used were HTML5, CSS3, Javascript, API's, Ajax, Axios
- Github: https://github.com/jrubin9326/findFlix
- Website: https://jrubin9326.github.io/findFlix/

Uwell |Back End Developer

- This site requires users to register an account and submit a profile. Then they have an option to connect with other users, search events, or post updates of their activities.
- Tools/languages used were Bootstrap, Handlebars, Node.js, Express, Axios, Fakerjs, Firebase, Sequalize
- Github: https://github.com/pgerspach/Group-Project-2
- Website: https://uwell.herokuapp.com/

TourNYC |Full Stack Developer

- This sit is for tourists who visit New York City and want to learn about each borough and their specialty. Allowing them to select any borough and choose from a list of options of activities and locations in that borough. Along with a trivia game and a subway map to help navigate through the city.
- Tools/languages used React, Yelp API, Ajax, Axios, Mongoose/MongoDB, Node, Sequelize, Bootstrap
- Github: https://github.com/vincishar/FinalProject
- Website: https://tour-nyc.herokuapp.com/
